

Falland 57 Oct 5/63

Dear Sir.

¹⁰⁰ Martin Washington
reached us this noon
safely, and was engaged,
when I left the house,
in ornamenting his room
with those large Boydell
gallery engravings which
Spencer published - a
copy of which I bought
and outgrew. They seem
very beautiful & fine

and he appears very
happy. The children
and domestics and
especially my dogs
took kindly to him
and the prospect is
that he will be a
favorite: certainly
he will be if his
hardiness equals his
unaffected desire to
make himself use-

ful and to please.

He was greatly delighted
that I gave him a
photograph of "his
friend", as he called him,
John Brown. This hangs
at the head of his
bed.

I will keep you
advised if any thing
particular occurs -
and hope he will be
able to give some ac-
count of himself in

writing before winter
is over.

For your kind in-
tervention in the affair
pray accept our thanks.

From being aunker,
at the breaking out of
the war I am of ne-
cessity now a rank
abolitionist, and can
not see how any other
person who fears God
can be otherwise
Faithfully yours

W. L. Garrison & Geo. W. Dana
